The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fail to anticipate or render obvious the following technical features as recited in the highlighted claims:

Referring to claims 1-4 and 17, the prior art fails to teach or suggest "...a rotary mirror type camera assembly...a rotary mirror type display apparatus... and a casing rotatable together with said mirror for monitor about an axis extending through substantially a center of the display screen of said monitor perpendicular to the display screen; said mirror for camera being rotated according to a rotation of said casing; said mirror for monitor being fixed to said casing, when said casing is rotated, said mirror for monitor being rotated in display direction of said monitor in front of said monitor; **said monitor being separately disposed from said casing, in which said monitor is fixed in position and does not rotate when said casing rotates**".
